EFG - the voice of European Geologists

The EUROPEAN FEDERATION OF GEOLOGISTS, EFG, is a non-governmental organisation that was established in 1981 and today includes 21 national association members. It is the representative body for the geological profession in Europe.

EFG contributes to protection of the environment, public safety and responsible exploitation of natural resources by promoting excellence in the application of geoscience, by supporting research and teaching that underpins it, and also by creating public awareness of the importance of geoscience to society.

EFG encourages professional development by promoting training and Continuing Professional Development and offers validation (certification) through its internationally recognised title of European Geologist (EurGeol).

The EFG delivers its objectives through activity relating to:

- EU policies & environmental protection
- Education & outreach
- Free movement & professional titles
- Professionalism & ethics
- Supporting EFG Members
