

Senior Resource Geologist, UK

My client is a leading independent consultancy that is well-known and favoured by the top mining & exploration companies throughout the globe.

They are currently seeking a Senior Resource Geologist with 10-15 years experience to join their specialist team in the UK office. Knowledge of Geostatistics and some practical geological experience is vital. You will be working in a senior position helping to run a team whilst consulting on some of the most exciting projects in the industry.

My client is looking to offer a generous salary package, as well as providing plenty of opportunity for career progression and travel.
