

Due to the ongoing growth and expansion at Malone O'Regan Environmental Services Ltd, we are looking to strengthen our team with the addition of a Geologist/Hydrogeologist.

Key Skills/Requirements:

- Degree qualified in geology, hydrogeology or equivalent (MSc an advantage).
- Minimum 3 years practical experience – consultancy experience preferred.
- Competent in logging in accordance with BS5930.
- Experience in soil logging/sampling and groundwater monitoring at contaminated sites.
- Competent in technical report writing.
- Driving licence.

Key Duties/Responsibilities:

- Site investigation supervision (borehole/monitoring well installation, trial pitting, soil sampling and groundwater sampling).
- Data analysis, interpretation and presentation.
- Technical report writing.

This position will be based in our Dublin office and will offer an attractive remuneration package that will be commensurate with experience.

CVs should be forwarded to enviro@morce.ie marked FAO Claire Clifford.
