

Title: **PROJECT GEOLOGISTS (x2)**
Location: Gortin, Co Tyrone, Northern Ireland

Responsible for mineral exploration on behalf of Dalradian Gold on licences DG 1-4. The successful candidates will work with Dalradian staff and contractors to ensure best technical and operating practice on the Tyrone Project in general and the Curraghinalt gold deposit in particular.

The successful candidates should be familiar with large-scale mineral exploration projects, including

- Drill core logging and sampling,
- Drill rig management
- Digital data entry of geological information
- Collation and interpretation of data
- Liaising with drill contractors.

Geological software skills are an advantage.
