

21<sup>st</sup> February 2011

Rathdowney Polska Sp. Z.o.o. is seeking to add an experienced **Project Geologist** to its team in Poland. The successful candidate will have **5+ years experience** in advanced exploration programmes, preferably in base metals. Candidate should have experience of running multi-rig diamond drilling programmes and be familiar with all aspects of running a large drilling programme, including implementing logging and sampling procedures, liaising with drill contractors and supervising a team of field geologists. Experience of MapInfo/Discover is desirable. Fluency in Polish is also desirable but not essential. This is a full-time position based at Rathdowney's field base near Krakow, Poland.

An attractive remuneration package is on offer to the right candidate.

Please forward your CV to [jobs@rathdowneyresources.com](mailto:jobs@rathdowneyresources.com) using the subject 'Project Geologist - Poland', no later than 5pm, 4<sup>th</sup> March 2011.
