

Hydrogeologists needed in Canada!

At Trow we value our employees as being our greatest competitive advantage.

About Trow Global:

Trow Global is one of Canada's largest engineering and consulting firms. With over 125 offices across Canada, the U.S. and internationally and with projects around the globe, Trow Global offers clients in both the private and public sectors a full range of services provided by a dedicated team of more than 3,500 professionals, including specialist engineers and technical experts located throughout the world. Selected as a winner of Canada's 50 Best Managed Companies program for 2001 and 2006, and a requalifier for 2002, 2003, 2007, 2008 and 2009, Trow Global provides integrated solutions in the Buildings; Earth, Environment & Sustainability; Energy; Industrial and Infrastructure markets. Today Trow Global continues to enjoy dynamic growth on a global scale.

Why choose Trow?

Trow Global is a great company with a great future! Our strong leadership team has created an environment where all our employees have an excellent opportunity for both professional and personal growth. Our employees are informed and empowered. This strong coupling inspires loyalty, professionalism and respect throughout the organization. If you are looking for a company that places an emphasis on professional growth then we are interested hearing from you.

The Opportunity:

Trow Associates is currently looking for a Hydrogeologist to work in its Brampton, Ontario Environmental Division. The environment is fast-paced and growth oriented, ideally suited for individuals who like to take charge and are driven to build on current successes. If you are looking to develop your skills and advance your career; this opportunity is for you!

The successful candidate will bring:

- Both clean water and contaminated water project experience including experience conducting studies of contaminant groundwater flow and modeling, clean water, water resources, de-watering during construction, etc.
- Minimum of 10 years related experience with a Professional Engineer designation or P.Geo designation; Degree in Hydrogeology ;
- Project Management experience

- Expertise in specification/technical writing;
- A demonstrated ability to work independently, as well as a dedicated member of a team;
- Strong organizational and time management skills;
- Detail oriented; excellent written and verbal communication skills.

What Trow Has to Offer:

Trow's multidisciplinary focus provides employees with the unique opportunity to work on exciting and innovative projects while participating in teams with talented individuals from across the organization and a variety of specialty areas.

Trow offers a competitive compensation package including a dynamic flexible benefits package with Extended Health, Dental, Life, AD&D, Short Term Disability, LTD, an employer matched Group RSP program, educational reimbursement, and more!

How to Apply:

If you would like to join an organization that offers a balance of technical excellence, individual growth, creativity, and corporate leadership, we'd like to hear from you.

Interested candidates are invited to submit their curriculum vitae or any related inquiries to sarah.skinner@trow.com.
