

## Intermediate Hydrologist

AWN Consulting Ltd. is committed to delivering technical excellence to our clients. To meet client needs we need to expand our team of technical experts. We are currently seeking applications from suitably experienced consultants for the position of Intermediate Hydrogeologist at our office in Clonshaugh, Dublin.

You will be part of a strong technical team of 35 staff including hydrogeologists, environmental scientists, chemical engineers, acoustic engineers and air quality experts. Projects will include EIA assessment, technical reporting, licensing, hydrogeological field investigation and assessment and risk modelling.

### Requirements:

- A minimum of a Masters in Hydrogeology or similar/ relevant qualification with 2-5 years experience.
- Strong communication skills and an interest in working with a multi-disciplinary team
- Good experience of site work and the ability to lead work on-site are key attributes for the role.
- Ability to plan and execute field programmes with knowledge of proper sampling techniques and strong reporting skills.
- Experience in analytical and numerical groundwater modelling and using GIS software such as ArcGIS or MapInfo would be an advantage.
- Full Clean Driving Licence
- Membership/Chartership of a recognised Environmental Professional body

### Benefits:

We offer a competitive salary plus a range of benefits including a contributory pension, discretionary company bonus, PHI & Life Insurance, up to 25 days holiday and a flexible working policy.
