

Mr. Ollie Bonham PGeo

receives the inaugural

Institute of Geologists of Ireland Honorary Fellowship

National Concert Hall, Dublin, 4th October 2018.

It was a special week for the IGI with the inaugural Honorary Fellowship being presented to Ollie Bonham PGeo in the National Concert Hall in Dublin.

It was a wonderful occasion, made all the more so by the presence of Ollie's family, friends and former classmates, many of whom had travelled especially to attend the event. Ollie delivered an interesting and thought-provoking lecture on self-regulation of the geoscience industry which led to many questions and much discussion. IGI President Catherine Buckley then presented Ollie with his award. In her speech, Catherine touched on the significant contribution that Ollie has made to the field of Professional Geology including the establishment of international Co-operation Agreements and Mutual Recognition Agreements, which many of our own members benefit from.

Ollie very kindly presented the IGI with a book on Canada's Geological Heritage.

Thank you to those who attended and helped make it such an enjoyable occasion.
