

Malone O'Regan Environmental

Role Advertisement

Internal Role Title:	Environmental Consultant – Water Resources
Role title advertised:	Environmental Consultant – Water Resources
Contract Type:	Fulltime (36.25hrs), permanent
Reporting to:	Senior Hydrogeologist
Work model:	Hybrid
Location:	Dublin, Cork or Tullamore

Role Overview

Are you an experienced hydrologist or hydrogeologist seeking to further your career in a forward-thinking environmental consultancy? As we continue to grow with high-profile clients, we are looking for a skilled and ambitious individual to join our team of environmental consultants. The successful candidate will play a key role in the water and geological aspects of multiple large-scale projects and will manage standalone hydro projects. This is a full-time, hybrid role based in any of our offices. It involves a combination of site and desk-based work; a full, clean driving licence is required.

Malone O'Regan Environmental is a leading environmental consultancy that provides innovative and sustainable solutions. As an Indigenous Irish company, we specialise in delivering comprehensive environmental services to diverse clients and ensure compliance, sustainability, and excellence in every project we undertake. Join our dynamic team and contribute to impactful environmental projects that shape a sustainable future.

Role Responsibilities

- Drafting geology and water chapters for Environmental Impact Assessment and Environmental Reports (EIAR and ER).
- Compiling Water Framework Directive reports.
- Managing and evaluating water resources.
- Carrying out flood risk assessments.
- Developing Conceptual Site Models.
- Design and supervision of water well drilling and pumping tests.
- Design and supervision of site investigation.
- Support project managers in all aspects of project deliverables.
- Attend client meetings, liaise with and oversee subcontractors' work.
- Stay updated with industry trends, regulatory changes, and best practices.

Required experience and qualifications:

- Bachelor's degree in Hydrogeology, Hydrology, Geology, Environmental Science, or a related field.

- A minimum of three years of relevant experience, preferably in an environmental consultancy.
- Knowledge of surface water and ground water resources and interaction.
- Experience compiling EIARs for geology and water chapters.
- Water Framework Directive experience.
- Demonstrated experience in drilling supervision and logging.
- Demonstrated experience in site investigation, geoenvironmental sample collection and monitoring.
- Ability to analyse and interpret complex data sets.
- Competence in compiling comprehensive technical reports and deliver high-quality findings and recommendations.
- Project Management.
- Excellent written and verbal communication skills, particularly in technical report writing
- Full Irish driving license.
- Competent in Microsoft 365 (Word, Teams, Excel, Sharepoint).

Desired experience and qualifications:

- Masters in Hydrogeology, Hydrology, Geology, Environmental Science, or related field.
- GIS (ArcGIS and/or QGIS) experience.
- Membership of a Professional Organisation.
- Experience in flood impact assessment.
- Experience in sustainable energy projects (wind farms, solar farms, battery storage) and management of water resources.
- Project Management experience or qualification.
- Costing projects for proposals and drafting project proposals for clients.
- Project financial management.
- Business development.

About you

You have an excellent understanding of environmental science principles and can understand and analyse client requirements. You are ambitious and keen to learn new skills and progress in your career.

Flexible to work on several varied projects with diverse challenges. Good at managing your workload, paying close attention to detail and quality of deliverables. Effective communicator, both verbally and in writing, with strong teamwork skills. Ability to work as part of a team and on your own to meet project deadlines and budgets.

About us

At Malone O'Regan Environmental, we pride ourselves on delivering innovative and sustainable environmental services. Our team works on diverse projects, ensuring compliance, sustainability, and excellence in everything we do. We work on large-scale infrastructure projects, including all stages of Design, Planning, Environmental Impact Assessments and reports, Planning Applications and consents, industrial Licensing, and ongoing Environmental Monitoring and Support.

We are a successful, growing environmental consultancy serving the Irish market, with offices in Dublin, Cork, and Tullamore. We work on exciting, cutting-edge projects, among the country's most significant development projects, across various industries and clients. Our reputation for excellence in technical competence, design strength, and client service comes from over 25 years of operating at the cutting edge of environmental services, delivering exceptional outcomes for our clients.

Our environmental services include planning, licensing, sustainability, acoustics, biodiversity, air, odour, hydrogeology, contaminated land, environmental monitoring, and waste management.

We have many large, high-profile clients in the private and public sectors, including those in renewable energy, food and drink, housing developments, quarries, building materials, waste management and pharmaceuticals.

You will be joining a friendly team with top-class expertise in its field.

What we offer

The opportunity to work on diverse and challenging projects in an inclusive and collaborative environment. We are not a massive multinational, so everyone has a voice; their opinion counts, and they get exposure to great projects at an early stage.

Due to our consistent success in delivering excellent service to clients, we continue to grow, giving plenty of opportunities for professional development and career advancement.

An attractive remuneration and benefits package that is commensurate with experience and qualifications. In addition to salary, benefits include:

- Company contributory pension scheme
- Health and Wellness Cash Benefit
- Life Insurance
- Employee Assistance Programme
- Hybrid Working
- Flexible Core Hours
- Training and Continuous Professional Development programme
- Fees Paid Membership of Professional Organisations
- Study Sponsorship Scheme
- Bike to Work Scheme

Malone O'Regan Environmental is an equal-opportunity employer. We celebrate diversity and are committed to creating an inclusive environment for all employees.
