

This event is aimed at professionals and related agencies in the energy, engineering and geoscience areas interested in learning more about geothermal energy on the island of Ireland.

Opportunities in Geothermal Energy: What to expect for the Island of Ireland

Join us for discussions on the current and upcoming activities in the geothermal energy sector and stay for networking and chat.

Find out about strategic plans for the Geothermal Association of Ireland and receive an update of the demonstration projects and systems being delivered by the GEMINI project.

The event will feature an interview and discussion with **Sanjeev Kumar**, Director of Policy at the European Geothermal Energy Council, which will address the geothermal sector's contribution to decarbonisation, district heating and cooling, and new EU policy.

Moderator: **Kevin O'Sullivan**, Environment and Science Editor with the Irish Times.

Wednesday, 5th November 2025 18:00-20:00

Engineers Ireland, 22 Clyde Road, Ballsbridge, Dublin 4
