

Geotechnician – Group Eleven Resources Corp.

Location: Kilpeacon, Co. Limerick

Employment Type: Full time

Start Date: 3rd February 2026 (or sooner)

Group Eleven Resources Corp. is a mineral exploration company focused on advanced stage zinc exploration projects in Ireland. Group Eleven's activities are primarily focused on south-west Ireland, in particular on its Ballywire and Stonepark projects.

We are looking for a Geotechnician to join our existing team, based at our premises in Kilpeacon, Co. Limerick.

Key Responsibilities

- Assist geologists in daily field operations
- Carrying out geotechnical logging of cores
- Cutting core samples and prepare for dispatch to laboratory
- Support drilling programs – core collection, dealing with contractors and landowners etc.
- Ensure compliance with company safety protocols and environmental standards

Qualifications

- Role would suit a geotechnician or a recent graduate in Geology/Earth Science interested in a starting role in mineral exploration
- Previous mineral exploration or fieldwork experience an asset, but not necessary
- Strong organisational skills and attention to detail
- Comfortable working in outdoor environments
- Good communication skills and ability to work as part of a team
- Full, clean driving licence

How to Apply

Submit your résumé and a brief cover letter to David Furlong

d.furlong@groupelevenresources.com with the subject line **“Geotechnician Application – Group Eleven Resources.”** – no later than 5pm on Wednesday 19th December
